January 2025

Dear Brothers and Sisters:

Journeyman Advanced Night School Training Courses for the spring of 2025, starting in February 2025 and ending in May 2025. Please see the enclosed calendar for a full listing of all the Advanced Training classes that are being offered.

Just a reminder of the mandatory classes as per the last contract effective June 1, 2018; SFUA Article XII, Section 1 – “Sheet Metal workers shall complete OSHA 30 training, as well as any mandatory refresher course, as a condition of employment in the sheet metal industry. In addition, all journeymen shall obtain signaling, scissor lift, confined space, hoisting and rigging, and forklift training no later than May 31, 2019.” If more classes are needed, we will add them later. Classes will be filled on a first-come basis. All classes do have a minimum and maximum cut off so make sure you respond quickly to get your first choices.

*\*\*As you may have heard or experienced personally on certain job sites, OSHA Certifications must be within the last five (5) years. If it is not within the last five (5) years they do not allow you on the job site.*

We encourage every member to participate in the courses offered at our Training Facility. When you sign up for a course being offered it is a commitment you should not take lightly. If you sign up and do not show up for the class this affects the other people in the class also and could cause the class to be canceled. The more specialties you have completed the more valuable you are to the contractors and the faster you will move on the Referral Hall list. We look forward to seeing you in class this fall. If you have any questions or require additional information, please contact the JATC at (201) 507-0333, Ext 127, or e-mail [dbracero@smw25.org](mailto:dbracero@smw25.org).

Fraternally yours,

Joseph Demark, Jr.  
 President/Business Mngr

Sam Figueroa  
 JATC Training Coordinator

Dana Bracero  
 JATC Administrator
